TRANS-PACKERS SERVICES CORP., A MAJOR U.S.A. CONTRACT PACKAGING AND FOOD MANUFACTURING COMPANY, IS EXPANDING INTO CENTRAL NEW JERSEY & IS SEEKING TO HIRE AN INDIVIDUAL INTERESTED IN SOLUBLE COFFEE, TEA LEAF and TEA EXTRACT

JOB DESCRIPTION

The Quality Assurance & Sanitation Supervisor is to be responsible for the implementation and execution of the company's Sanitation and Quality Management System. This role will ensure the company's compliance to sanitation policies, as established by both government and commercial regulations, through the continuous improvement of current programs in such areas as Good Manufacturing Practices (GMP's) and Pest Management. The Quality Assurance & Sanitation Supervisor is to be responsible to allocate and manage resources, personnel development and training, budget management, and to identify resource needs to efficiently and effectively execute all sanitation responsibilities.

DUTIES & RESPONSIBILITIES

- Leadership in sanitation design reviews and determining plant capital needs
- Partner with all Plant Operations, Maintenance, Engineering, Quality, and Personnel to ensure sanitation and pest control programs, procedures, and systems are effectively developed, executed, and monitored as required by standard and within budget.
- Overseer of on-site cleaning (COP/CIP) program development, training for plant sanitation team and other facility personnel, execution and tracking
- Communicates regularly and as needed any safety, food safety/quality, or vendor issues, and provide support as needed to the Plant Manager and Quality Manager
- Supervisor of the plant internal sanitation team, and sanitation / pest control vendor resources, and applicable regulatory visits and plant audits
- Drives continuous improvement in and across the plant through tracking, reporting, and reviewing sanitation performance indicators
- Utilizes statistical tools and conducts effective root cause analysis to implement both corrective action and preventive actions across the facility
- Reports regularly to the Plant Manager and Quality Manager

JOB REQUIREMENTS

EXPERIENCE & QUALIFICATIONS

- Work Experience in Quality/Manufacturing/Sanitation Supervisor roles and environment, experience in multiple manufacturing environments preferred
- Bachelor of Science (B.S.) in Food Science, Engineering, Chemistry, or other relevant fields
- Certifications and/or Training in HACCP, SQF, PCQI, Organic Handling required
- Comprehension of manufacturing plant operations, food experience preferred
- Advanced Computer Skills, specifically in Microsoft Suite, work processing, and spreadsheets
- Leadership and Team Building Skills to direct plant sanitation program and staff development
- Strong Verbal Communication and Writing Skills
- Skill Sets in Analytical and Risk Assessment Analysis
- Verbal and Writing Fluency in both English and Spanish is preferred
