

Call for papers: If you have food microbiology papers that are not basic enough for *Applied and Environmental Microbiology* and not “safety” enough for the *Journal of Food Protection*, consider submitting them to the *Journal of Industrial Microbiology and Biotechnology*. *JIMB* is the official peer reviewed journal of the Society for Industrial Microbiology and Biotechnology, and has a five year impact factor of 2.72. As a newly appointed Senior Editor, I have been tasked with growing the Journal’s coverage of food microbiology. *JIMB*’s web site is www.springer.com/10295. If you have questions about the suitability of your paper for *JIMB*, send the abstract to me directly at Montville@aesop.rutgers.edu.
